To Whom It May Concern:

It is my pleasure to recommend Matt McCann for employment in any field related to Computer Science. Matt was on our Software Team as an Intern in 2010 and did an excellent job helping us to develop a Programming Station for a secure software development environment. This Programming Station is currently used by the Military to ensure mission security.

Matt is a very talented software programmer and is a hard worker. Moreover, he thrives when challenged and works well under pressure. He would be an asset to any company that he would work for.

Sincerely,

A handwritten signature in blue ink that reads "John S. Fulton". The signature is written in a cursive style with a large 'J' and 'F'.

John S. Fulton
Principal Software Engineer
